La Posada de Kingsville

Legend of the Wreath

The wreaths of Christmas are very special symbols of the holiday season. Wreaths represent a love that knows no end. The never-ending circle is a very visible reminder of the flowing of the years, and the repetition of the holidays and seasons. All things are made new by this process. Winter leads to Spring, which leads to Summer then Fall, until Winter comes again. This process is repeated until we come once more to this day.
